5.	Fun Interaction for Seniors	By MSc Juniors	5 Minutes
6.	Open the floor	Any Senior Students/Faculties	10-15 Minutes
7.	Good bye Video/ Speech	Video	5 Minutes

With the extended phase of pandemic in 2021, the tradition of farewell had to be taken on virtually. Farewell 2021 was held on July 26th at 11:00am wherein more than 50 students and faculty members participated online on the google meet platform. A farewell ceremony was arranged in honor of the outgoing students of MSc Biotechnology.

The farewell event started with cordial greetings from Dr Hemant Sood, the faculty coordinator of Synapse Club.

The event was further hosted by Ajay Kumar, a first-year student of MSc. Biotechnology. He requested Prof. Dr. Sudhir Kumar Sir, to enlighten the gathering with his marvellous words of wisdom. Sir was quite vocal about the issues faced by students since they're unable to be present at the campus. He spoke highly in praise of the students for working hard despite the very precarious times of the pandemic and that the Josh was absolutely commendable. Sir then concluded his speech, by leaving the students with his words of motivation. "Obstacles provide us with lots of opportunities".

Sir, appreciated the efforts of the Synapse team for arranging the virtual farewell for the Master's students.

Shivangi Jaryal then put forward a video that was based on the various different personalities of the students which were quite remarkable.

Here on, Dr Hemant Sood, faculty coordinator of Synapse Club shared her words of wisdom which filled the audience with tremendous zeal.

She brought an end to her speech with a heavy-hearted goodbye for the seniors and wished them well for their future endeavours.

Dr Tiratha Raj Singh, faculty coordinator of Synapse Club and head of media and relations of JUIT gave his insights about the batch and acknowledged them being the very 1st batch of MSc. Biotechnology of JUIT.

He then brought an end to his speech with a beautiful shayari.

Shivangi Jaryal, Amritansh Rai afterwards started a game called "guess who", where the students had to use their minds in order to guess and present their answers in the chat box. The chat box hence became flooded in no time with answers that had a dearth of smiles and waves of laughter for everyone present. The game was full of fun and frolic and was completed on a high. Dr. Rahul expressed his kind gratitude to Rahul and Utkarsha for always being there to take various reasonable and successful initiatives.

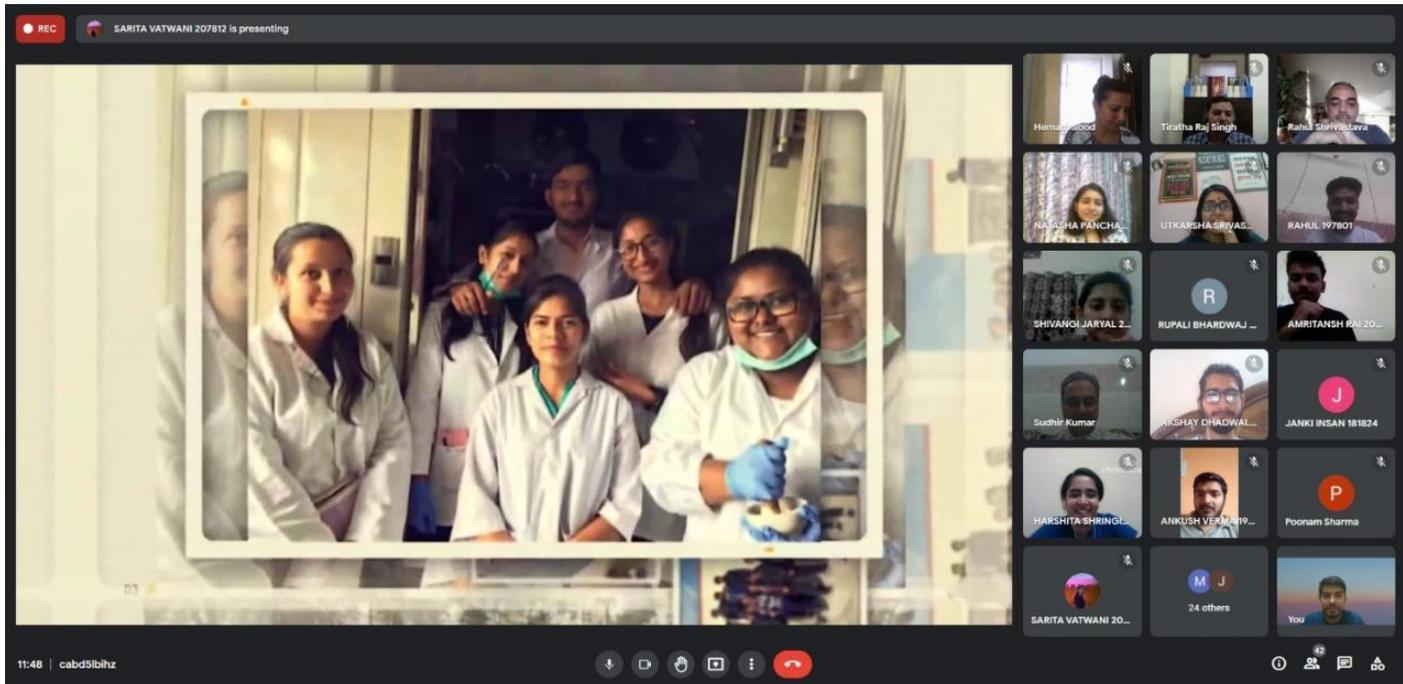

After the very enthusiastic completion of the game, students were asked to share their own experiences for the present event.

Rupali, Rahul, Utkarsha, and other students from the MSc. Batch, expressed their firm gratitude towards their teachers and their fellow batch mates, whilst putting forth some of their beautiful memories as well.

Here on, Dr Rahul Srivastava was requested to hold the platform and speak a few words. He described his astonishment at the dancing skills of the M.Sc. students. He also was kind and thoughtful enough to advise the students, not to be hesitant in taking courageous decisions in life, which would be beneficial in the future. Dr. Anil Kant, Dr. Jitendraa Vashist, Dr Jata Shankar, Dr Saurabh Bansal, Dr Abhishek, Mohd Ismail Siddiqui and Ms. Somlata Sharma wished the students good luck for their future endeavours. To conclude the event, a farewell video compilation that was created by the Synapse team was presented. The video showcased the photographed memories collected from the students of the graduating batch, summing up their journey in JUIT through a video.

Farewell 2021 ended on a positive note with students and professors switching on their cameras to capture the final official event for the First MSc Biotechnology batch in a group screenshot.

**“A farewell is necessary before we can meet again and meeting again,
After moments or a lifetime, is certain for those who are friends.”**
