

Visit by Govt Sr. Sec School Chanawag, Shimla

Date: February 14th, 2023

School: Government Senior Secondary School, Chanawag, Shimla

Approximate No. of Students Attended: 65

About 65 students from Government Senior Secondary School, Chanawag, Shimla, visited the Department of Civil Engineering at JUIT on February 14, 2023. They interacted with the faculties and laboratory staff and learned about the various experiments and their importance done in the Highway Engineering, Concrete Technology, Environmental Engineering, Computer Aided Designing, Workshop Practices, and Geotechnical Engineering. This visit was coordinated by **Dr. Saurabh Rawat** from the Civil Engineering department while **Dr. Saurav** helped in the overall organization of the visit. The students also visited various departments including Computer Science Engineering, Information Technology, Biotechnology and Bioinformatics, Electronics and Communication Engineering, Department of Mathematics, Department of Physics and Materials Science, Department of Humanities, and Social Sciences, etc. The Head of Civil Engineering Department, **Dr. Ashish Kumar** encouraged having similar frequent visits in near future so that the students develop interest in science, engineering, and technology.

Dr. Saurabh Rawat discussing the importance of Civil Engineering at the Highway Engineering laboratory (Civil Engineering Department, JUIT) to the students.
