

DR. SHIKHA MITTAL

Assistant Professor
Department of Biotechnology and Bioinformatics
Jaypee University of Information Technology
Waknaghat, Solan - 173 234
Himachal Pradesh

Contact No : 01792 – 239224,
9643609185, 8076035143
email: shikha.mittal@juit.ac.in,
shikhamittal259@gmail.com

Educational Qualification (Qualified ICAR-NET)

Degree	Institute	Year	Subject
Ph.D	Sam Higginbottom University of Agriculture, Technology and sciences, Allahabad (Workplace: IARI, New Delhi)	2019	Bioinformatics
M.Sc	Banasthali Vidyapith University, Rajasthan	2012	Bioinformatics
B.Sc	HNB Garhwal University	2010	Biotechnology

Work experience (10.4 years)

Position	Brief description	Institute	Year
Assistant Professor	Teaching & Research	Jaypee University of Information Technology, Solan	2022-till date
Project Scientist-I	NGS data analysis, Genome-wide association studies, genomic selection, SNP/SSR identification, Primer designing, genome annotation, comparative genomics	ICAR-National Bureau of Plant Genetic Resources	2020-2022
Post-doctoral Fellow	Role of TLRs in Nucleic acid recognition, microarray data analysis, NGS data analysis	Jawaharlal Nehru University	2019-2020
Research Associate	Whole genome and transcriptomic data analysis, GBS data analysis, Statistical data analysis using SAS, SNP/SSR identification, Genome annotation, Primer designing, R language	ICAR-Indian Agricultural Statistics Research Institute	2017-2019
Senior Research Fellow	GWAS, Genomic Selection, RNA-Seq data analysis, microarray data analysis using R, KEGG pathway analysis, genomics, SNP and SSR identification	ICAR-Indian Agricultural Research Institute	2014-2017
Lecturer	Teaching undergraduate students, practical	DAV(PG) college, Muzaffarnagar	2012-2014

Technical Knowledge

- **Working Expertise:** NGS data analysis (Whole genome and transcriptome), Microarray Data Analysis, Genomics, transcriptomics and Proteomics, gene annotation, gene networking, genomic selection, genome-wide association mapping and mirna-mra identification.

- **NGS analysis tools:** BWA, Bowtie, SAMtools, GATK pipeline, freebayes, Trinity, SOAP-denovo, SPAdes, Velvet, AbySS, MIRA, BED tools, FASTQC, TopHat, cufflinks, CLC Genomics workbench, STAR, Velvet, MAKER pipeline.
- **Software Packages:** CLC-Bio, Discovery studio, BLAST2Go, Cytoscape, Circos, IGB, IGV, MISA, SnpEff, STRING, MEME suite, Transfac, DAVID, AgriGO, WEGO, iTOL, DnaSP, PlantCARE, PLACE, MEGA, iTOL, FigTree, MUSCLE, CLUSTALW, BLAST, FASTA, AUGUSTUS, PrimerQuest, TSSP softberry, STRUCTURE and TASSEL.
- **Databases:** NCBI, Ensemble, Phytozome, MaizeGDB, Gramene, TAIR, miRBase, PlantGDB.
- **Scripting languages:** R, Perl.
- **Operating systems:** Unix, Linux and Windows.
- **Important Courses Studied:** Molecular Computational biology, Functional and Comparative genomics, Biodiversity and bioinformatics, Disease related Computational biology, Database management system, Evolutionary computing, Pharmacogenomics and Computer aided drug designing, Proteomics, Structural biology, statistical techniques.

Research Highlights

- Worked on SNP chip array development of wheat using 55 accessions including different varieties and landraces of approximately 20 countries.
- Done comparative transcriptome analysis of Ricebean contrasting accessions.
- Performed reference based assembly of wheat genotype i.e., KRL3-4 under sodicity stress.
- Performed Whole genome assembly and metassembly of *Brassica fruticulosa*, a wild species of Brassicaceae family.
- Compared mitochondrial genomes of different species of Apis.
- Done assembly of chloroplast genomes of *Brassica juncea*, *Brassica nigra*, and *Brassica rapa*.
- Performed Genomic selection and GWAS in maize.
- Compared accuracies of seven genomic selection models (Parametric, non-parametric and semi parametric) for drought tolerance in maize.
- Comprehensively identified and characterized 15 drought responsive transcription factors and studied how these transcription factors interact with each other under drought stress in maize.
- Characterized CDPK gene family under drought stress in different species including, Arabidopsis, Maize, rice and Sorghum and also predicted 3D structure of CDPK proteins.
- Identified drought responsive candidate miRNAs and their targets in two contrasting genotypes of maize.
- Conducted transcriptomic analysis in maize under water-logging stress to identify, SSRs, SNPs.
- Studied genome-wide expression and function interaction of genes under drought stress in maize.
- In maize hybrids, identified candidate genes controlling drought related traits.
- Identified co-regulated genes under abiotic stress in *Cicer arietinum*.
- Did nucleotide diversity analysis and synonymous and non-synonymous substitution analysis in *Francisellatularensis*.
- Characterized and compared different transporters including YSL, OPT, ZIP and NRAMP in *Zea mays*, *Brachypodium distachyon*, *Oryza sativa*, *Arabidopsis thaliana* and *Setaria italica*.
- Transcriptomic data analysis and identification of SSR markers in Clusterbean.

- Transcriptomic analysis of different species of Brassica.

Awards and Honours:

- **Qualified ICAR-NET** examination in biotechnology subject in December 2015.
- **Best poster award** in “Interdrought-V” conference organized by ICRISAT, Hyderabad.
- **Best poster award in “IC-Pulses 2023”** held in NASC, New Delhi, 10-12 Feb 2023.
- **GYAN scholarship award** in the NGBT 2018 conference organized by SGRF.

Research Experience

- **Bachelor’s thesis** - Micropropagation in *Bacopa monnieri* (August 2009-May 2010).
- **Master’s thesis**
 - ❖ Nucleotide diversity analysis in *Francisella tularensis* (July-Dec, 2011)
 - ❖ Study of co-regulated genes during abiotic stress in *Cicer arietinum* (Jan-June, 2012).
- **Ph.D thesis** – Identification and networking of stress responsive genes in maize (Jan 2015-2019).

Training/Seminars/Conferences/Workshops Organized

1. Organized an event entitled “Remembering the legendary biochemist on his birth centenary – Dr. Har Gobind Khorana” on 8th August 2022 in JUIT, Wagnaghat.
2. Co-coordinated the DST STUTI ICT workshop entitled “A hands-on Training program on approaches for screening and characterization of pre-clinical drug candidates” hosted by JUIT, Wagnaghat from 8th -14th Dec, 2022.
3. Co-coordinated National Science Day symposium-2.0 on 28th Feb 2023 in JUIT, Wagnaghat, Solan, Himachal Pradesh.
4. Organized NGS Workshop 2023 entitled “5 days hands-on workshop on NGS data analysis” from 20 – 24 march, 2023 in JUIT, Wagnaghat, Solan, Himachal Pradesh.

Invited Lectures/Resource Person in Training/Seminars/Conferences/Workshops

1. Delivered lectures and hands-on in summer training on NGS data analysis organized by JUIT from 8th June to 14th July 2022.
2. Delivered a lecture in the hands on workshop "Next Generation Sequencing and its Implications in Agriculture and Human Health" organized by JIIT Noida (5-9th Dec, 2022).
3. Delivered a lecture in “*National Seminar on "Digital India: Concept and Implications"*” organized by Government College, Sanjauli on 23rd-24th December 2022.
4. Delivered hands-on sessions in NGS Workshop 2023 entitled “5 days hands-on workshop on NGS data analysis” from 20 – 24 march, 2023 in JUIT, Wagnaghat, Solan, Himachal Pradesh.

Training, Seminars and Conferences attended

- Attended Faculty Development programme- **Utkarsh**, organized by JUIT on 22nd-23rd Dec. 2022.
- Attended webinar on “ethics in Science” on 19th Nov 2022 by Prof. O.P. Sharma
- Attended a Workshop on “**Intellectual Property Rights in Scientific and Engineering Disciplines**” organized jointly by IPR cell-JUIT on 21st September 2022.
- Attended one day Workshop on ‘Environment and Sustainability’ on June 9, 2022 organized by the Department of Biotechnology, Jaypee Institute of Information Technology, in collaboration with Department of Biotechnology and Bioinformatics, JUIT, Wagnaghat.

- Attended a session on “Gender Sensitization at Work Place” on 25th May, 2022, organized by Gender Champion Club at JUIT.
- Presented poster in “**XIV Agricultural Science Congress on Innovations for Agricultural Transformation**” held at National agricultural Science Complex, New Delhi during 20-23 February, 2019.
- Presented poster on Identification of functional elements on de novo assembled genome of Brassica fruticulosa, a wild crucifer resistant to Lipaphiserysimi”, in **NGBT 2018**, Jaipur.
- Participated Workshop-cum-Training on “**Statistical and Computational analysis of phenotypic and genomic data of mustard germplasm**” organized by IASRI, New Delhi.
- Presented poster on the topic Genome-wide identification, characterization and validation of drought-responsive CDPK gene family in Arabidopsis, maize, rice and sorghum in “**Supercomputing facility for Bioinformatics & Computational biology**” organized by IIIT, Delhi.
- Received Best poster presentation award on “**Comparison of genomic selection models under drought stress in subtropical maize**” in Interdrought-V conference organized by ICRISAT, Hyderabad.
- Short term course on “**Genomics for crop improvement**” (SFC-GCI) organized by Department of Biotechnology, MNNIT, Allahabad.
- Participated in DBT sponsored National workshop on “**Biological Databases and Data mining**” organized by Centre for Bioinformatics, Department of Bioscience and Biotechnology, Banasthali University, Rajasthan.
- Participated in national seminar organized by “**Commemorating 150 years of Mendel’s laws of inheritance**” organized by ICAR-Indian Agricultural research Institute, New Delhi.
- Presented paper in seminar on “**Modern Approaches in Biosciences**” organized by Department of Biosciences, DAV college, Muzaffarnagar.
- Attended workshop on “**Intellectual Property Rights**” organized by Directorate of Innovation, Projects and consultancy.
- Participated in Awareness Program on “**Take it to the Breeders & Researchers – The Plant breeders & Researchers Right through awareness**” organized by SHIATS university.
